

## **Animal Control**

### **Budget Amendment Request**

Within the Animal Shelter we have 18 dog kennels, and the gates are now around 20 years old. They are rusting bad, and the wire is in bad condition. We have patched and worked on them for 20 years. The gates have reached the end of their usable life and need to be replaced. The gates are in a condition that dogs can be injured or cut. This has been noted in our last couple state inspections. I had Mountain Fence and Deck to come and quote new gates. We would have these new gates constructed better and heavier duty than the last. This quote is included in this packet.

I have checked with Sandy Long in Financing, and we have donation money that would cover this project. It would be my request to move forward with this asap.
