Notes on Tracie's request

Request for Position Reclassification – Position Number 5310-306-24

On 11/18/2024, The Board approved a position modification of original position number 5310-317-21. The original request was to change a Social Worker IAT position to a Social Worker Supervisor II position to supervise the Disaster Recovery Unit. The original request was also made to change the position from temporary status to permanent status. The position number changed to 5310-306-24 since the position was reclassified. According to Tracie, once the disaster recovery work comes to a natural stop, she will return to the Board to request this permanent SWS II position be changed back to a temporary SW IAT position.

At this time, Tracie is requesting the permanent Social Worker Supervisor II position (5310-306-24) be reclassified to its original classification and status of temporary Social Worker IAT (proposed 5310-346-25).
