RE: Ashe County Middle School – Add'l Services_Site Utilities and Generator Revisions

Dear Allison,

Thank you for your continued support and collaboration as we work on the Ashe County Middle School Project. We are submitting an additional services request for the site utilities related to the Fire, Mechanical and Electrical rooms and the electrical changes which include the IT equipment and elevator on the Generator back up.

The fee for these changes is Eleven Thousand dollars (\$11,000).

We hope this is consistent with your understanding of the scope of work required. Please call me with any questions you may have regarding this matter.

Sincerely,

CLARK NEXSEN-NC
